

# Borys Pavlovych

Full-Stack Web Developer

## Personal Info

 [beastmaster0418@gmail.com](mailto:beastmaster0418@gmail.com)

 +3805674866683

 123A Shevchenko Street, Lviv,  
79000, Ukraine

 1996.04.18

## Education

- **Bachelor's Degree in Computer Science and Computer Engineering (4)**  
Faculty of Informatics and Computer Science (FICS)  
Mar 2013 - Oct 2017  
Key Subjects Studied:
  - Web Programming (HTML5, CSS3, JavaScript, PHP, Laravel, React)
  - Database Systems (MySQL, PostgreSQL)
  - Software Engineering and Project Management
  - Algorithms and Data Structures
  - Object-Oriented Programming (C++, Java)
  - Networking and Cybersecurity
  - Artificial Intelligence Fundamentals
  - Computer Graphics and User Interface Design

## Summary

I am a passionate and detail-oriented Ukrainian software developer specializing in web development and modern desktop application design. With a strong academic foundation from one of Ukraine's top technical universities and hands-on experience in real-world projects, I focus on creating efficient, user-friendly, and scalable software solutions. I enjoy solving complex technical challenges, optimizing application performance, and implementing clean, maintainable code.

## Work Experience

### Web Developer , Various Projects , Lviv, 79000

October 2017 - October 2020

- Designed and developed dynamic, responsive web applications using HTML, CSS, JavaScript, and .NET.
- Improved UI/UX design and implemented best practices in code optimization and security

### Full Stack Developer, Workana, Fiverr, TrueLancer (Freelance), Lviv, 79000

October 2020 - April 2025

- Completed over 20 projects across e-commerce, business automation, and CMS domains.
- Designed responsive front-end interfaces using React, Next.js, and Tailwind CSS.
- Implemented secure and scalable back-end systems using Laravel and MySQL/MongoDB

### Full Stack Developer , Workana (Freelance)

April 2025

- Develop and maintain custom web applications and APIs using React, Node.js, and Laravel.
- Collaborate with clients to gather requirements, propose solutions, and ensure timely delivery.
- Optimize application performance and maintain clean, maintainable codebases.

## CAREER OBJECTIVES

My studies at KPI provided a strong theoretical and practical background, preparing me for real-world software development. Working on academic projects and participating in programming contests helped me develop analytical thinking and a disciplined approach to problem-solving — skills I continue to apply in professional development environments.

## Skills

React.JS - Expert

Node.js - Expert

WordPress - Expert

## Languages

Russian - Native Speaker

English - Fluent

## Career Obj

Frontend: Build clean, pixel-perfect interfaces aligned with corporate branding and usability standards.

Backend: Develop secure, scalable, and maintainable server-side systems.

Database: Design optimized relational databases and complex queries to improve system efficiency.
